**Number and Operations**

1. Teacher will build one group of 5 objects. Student will build another group using manipulatives, showing more than, less than, equal to 5 objects. (Teacher will circle ones student knows).

2. Use manipulatives to solve the following addition problems:

$$5 + 2 =$$

$$0 + 6 =$$

$$8 + 1 =$$

3. Use manipulatives to solve the following subtraction problems:

$$4 - 2 =$$

$$3 - 3 =$$

$$7 - 4 =$$
